WBW Company and Commercial Department:
a dedicated team of experts experienced in all
aspects of commercial life.

Our expertise and experience allows you to develop your business in the knowledge that your legal matters are being managed by a dedicated and professional team of specialist lawyers.

We have wide-ranging experience in diverse areas of law, together with a solid reputation in handling commercial transactions. WBW frequently acts in company sales and purchases and are experts in assisting you to achieve your goals within your preferred timescale.

WBW's organisational structure ensures that you will come into contact with at least one other lawyer. This allows the expertise of the entire team to be utilised to your benefit, whilst containing legal costs, since the matter is handled at every stage by the most appropriately qualified, not the most expensive,

advisor. Our long-standing reputation ensures that we have valuable contacts in related professions and are able to liaise with third parties effectively to oversee a matter with minimum impact on the running of your business.

All aspects of your business can benefit from our experience. We are skilled in constructing shareholder and partnership agreements which both promote and protect the interests of the parties. Our proficiency, in the area of commercial property allows smooth progress of your property transactions, ensuring your business can develop and expand in accordance with your expectations. We are able to use our commercial awareness to draft your terms of business and contracts, with your interests at the heart of all we do.
