

Junior-Mid level Designer

Closing date: 13th March 2020, 5pm

Contract: Full-time

Salary: Competitive

We currently have an exciting opportunity for a talented and enthusiastic Junior-Mid level Designer to join our creative team based in Bristol.

We're looking for someone with a flair for design and branding to work on projects across our wide range of 'Good Cause' clients. Our ideal candidate will be fully competent in InDesign, Illustrator, and Photoshop – familiarity with After Effects is desirable.

A strong eye for detail and accuracy is a must, ensuring all work is completed to the highest standards before it leaves the studio and hits the client's desk. Previous agency experience (1 year+) is advantageous but not essential – if you bring a willingness to learn, we'll give you the tools to succeed! You'll need to be process driven, technically minded and happy to work as part of a small team, but with the confidence to take on briefs on your own.

We're a friendly lot, so if you're looking for a new home for your creative skills, we'd love to hear from you. Please send your portfolio, along with a CV and covering letter to leticia@sbwadvertising.co.uk

You can check out some of our existing work [here](#) – we'd love to hear your thoughts in your covering letter!

We're a small but perfectly formed integrated advertising agency based in the centre of Bristol and the heart of Cardiff Bay. We have an impressive portfolio of clients from just about every sector you can think of. That means there's plenty of variety and the opportunity to create a whole range of work from print and press to online and web.

Skills / Experience:

- Fully competent in Adobe Creative Suite (InDesign, Illustrator, Photoshop)
- Knowledge of After Effects is desirable
- Strong attention to detail
- Ability to produce print ready design and artwork.
- Strong knowledge of print, digital and ideally web.
- Interest and experience of branding work
- Previous agency work is desirable
